75% to 90%	No Product Currently	Home mortgage variable rate 4.00%	NA		No Product Currently	No Product Currently	NA	NA

*APRC% is for illustrative purposes. The APRC (Annual Percentage Rate of Charge) is the total cost of the credit to the consumer, expressed as an annual percentage.

The APRC (previously known as APR until recent regulatory changes) is the official cost for comparison. It's calculated using the average cost per year, including fees associated with the mortgage. However, it assumes you keep the mortgage for the entire term rather than just the initial deal period, and that the interest rate charged never changes.

All applications are subject to status and our lending criteria. This means that the amount we will lend you will depend on your individual circumstances, the type of property and the amount you borrow. For example, we may require a higher deposit if you are buying a flat or a new build property.
