

PRODUCT SUMMARY

Fixed Term Personal Deposit Account

A fixed term deposit account lets you save money for a set period with a fixed interest rate. The interest rate will not change during the term. This means you know exactly how much interest you'll earn by the time the account matures. If you think you will need access to your savings before the fixed term ends, this is probably not the right account for you.

This Product Summary should be read in conjunction with the Fixed Term Personal Deposit Account Terms & Conditions.
